World Development Report 2008 Agriculture for Development

- at the same time about 70 percent of the world's poor live in rural areas and most depend on agriculture for their livelihoods. World Development Report 2008 seeks to assess where and how agriculture can be an effective instrument for economic development, especially development that favors the poor.

World Development Report 2008: Agriculture for Development - the World Bank recently released a near final version of its 2008 World Development Report on agriculture for development ahead of the official release on 19 October. World Development Report 2008: Agriculture for Development - A dynamic agriculture for development agenda can benefit the estimated 900 million rural people in the developing world who live on less than 1 a day. Most of whom are engaged in agriculture, we need to give agriculture more prominence across the board.

World Development Report 2008: Agriculture for Development - the World Bank group WBG is a family of five international organizations that make leveraged loans to developing countries. It is the largest and most famous development bank in the world. And is an observer at the United Nations Development Group. World Development Report 2008: Agriculture for Development - the report provides guidance to governments and the international community on designing and implementing agriculture for development agendas that can make a difference in the lives of hundreds of millions of rural poor. The report highlights two major regional challenges:
